

Güneş GÜRLEK

Computer Engineer

Address: Ankara / Turkey
Phone: +90 505 041 0474
Date of birth: 03/07/2003
LinkedIn: <https://www.linkedin.com/in/güneş-gürlek-27051b246>
E-mail: gunesgurlek@gmail.com

Computer Engineering graduate with a strong interest in Artificial Intelligence, Computer Vision and Software Development. Throughout my academic journey, I gained hands-on experience by developing real-world projects involving AI-powered systems, mobile applications and full-stack software development. My graduation project (SafeStep) combines YOLOv8, Python, Raspberry Pi and Android development to assist visually impaired individuals through real-time object detection and voice guidance.

In addition to my academic projects, I completed internships in both the defense and intelligent transportation industries. During these internships, I participated in software installation, system validation, device testing and web application development while gaining experience with technologies such as React, REST APIs, Git and Agile development practices. These experiences strengthened my software engineering mindset, problem-solving abilities, and collaboration skills within multidisciplinary teams.

Beyond technical experience, I actively contributed to student organizations by serving as General Secretary of the Environmental Community and as a Board Member of the Computer Club at Başkent University. These roles enhanced my leadership, communication, organization and teamwork skills while allowing me to coordinate events and work with diverse teams.

I am passionate about building innovative software that creates real-world impact and continuously improving my technical knowledge.

Education

Bachelor's Degree

Computer Engineering Başkent University, ANKARA 09.2022 – 06.2026
GPA: 3.04 / 4.00

Skills

Programming Languages

Python, C++, Kotlin, Java

Tools & Technologies

YOLO, OpenCV, SQL Server, Flutter, Raspberry Pi, Git/GitHub, Firebase, Postman

Soft Skills

- Teamwork and collaboration
- Communication and presentation skills
- Problem-solving and analytical thinking
- Adaptability to Scrum/Agile processes
- Fast learning and research-oriented mindset

Interests

- Artificial Intelligence
- Computer Vision
- Travel & Cultural Exploration

Internships

Ortana – Intelligent Traffic Systems

07.2024 – 08.2024

- Developed responsive user interface components using React.
- Tested, validated, and integrated RESTful APIs using Postman.
- Utilized Git and GitHub for version control in an Agile development environment.
- Collaborated with cross-functional team members to support software development and testing processes.

Asisguard – Defense Industry

07.2025 – 08.2025

- Installed and configured software on embedded monitoring devices.
- Performed functional testing to verify system behavior and reliability.
- Assisted in validating hardware–software integration.
- Worked with the engineering team to identify and report test results.
- Worked effectively within a multidisciplinary engineering team, strengthening technical communication and collaboration skills.

Projects

SafeStep – AI-Powered Smart Glasses (Graduation Project) 09.2025 – 06.2026

- AI-powered assistive system for visually impaired individuals.
- Real-time object detection using YOLOv8, Python, and Raspberry Pi.
- Companion mobile application developed with Kotlin.
- Presented at the EMO (Chamber of Electrical Engineers) Graduation Project Exhibition and featured in interviews with national television channels.

Project Portfolio: <https://drive.google.com/drive/folders/1QSYQekITd8UgZjtH1t91Lgi-W8PysDJG?usp=sharing>

Github Repo: <https://github.com/DilanSaygili/SafeStep>

SnapMap – Social Media Application

01.2025 – 06.2025

- Built a social mapping application using Flutter and Firebase.
- Developed authentication, real-time messaging, and social interaction features.

Github Repo: <https://github.com/gunes-gurlek/SnapMap.git>

Language

English: B2 (Upper-Intermediate) - Gazi University English Proficiency Exam

Leadership & Activities

Computer Society– Başkent University

Board Member

09.2023 – 09.2024

- Supported the organization of technical seminars and career talks featuring industry professionals and university alumni.
- Participated in organizing technical events and club activities.
- Collaborated with the team on student-focused initiatives.

Environmental Community – Başkent University

General Secretary

09.2024 – 06.2026

- Coordinated community activities and organizational processes.
- Supported the planning and execution of events.
- Contributed to organizing Başkent University's first Tür Say event as part of the organizing team.
- Represented the Environmental Community at ÇevreFest and participated in the exhibition.
